GLOSSARY OF TERMS

Allocations - Money received from Provincial or National Government or other municipalities.

Budget - The financial plan of the Municipality.

Budget related policy - Policy of a municipality affecting or affected by the budget, examples include tariff policy, rates policy, credit control and debt collection policy.

Capital expenditure - Spending on assets such as land, buildings, and machinery. Any capital expenditure must be reflected as an asset on the Municipality's balance sheet.

Cash flow statement - A statement showing when actual cash will be received and spent by the Municipality.

DORA - Division of Revenue Act. Annual legislation that shows the total allocations made by national to provincial and local government.

Equitable share - A general grant paid to municipalities. It is predominantly targeted to help with free basic services.

Fruitless and wasteful expenditure - Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GRAP - Generally Recognised Accounting Practice. The new standard for municipal accounting.

IDP - Integrated Development Plan. The main strategic planning document of the Municipality

MBRR - Local Government: Municipal Finance Management Act (56/2003): Municipal budget and reporting regulations.

MFMA - Local Government: Municipal Finance Management Act (56/2003). The principal piece of legislation relating to municipal financial management. Sometimes referred to as the Act.

MTREF - Medium Term Revenue and Expenditure Framework. A medium-term financial plan, usually 3 years, based on a fixed first year and indicative further two years budget allocations. Also includes details of the previous and current year's financial position.

Operating expenditure - Spending on the day-to-day expenses of the Municipality such as salaries and wages.

Rates - Local Government tax based on the assessed value of a property. To determine the rates payable, the assessed ratable value is multiplied by the rate in the rand.

SDBIP - Service Delivery and Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budget estimates.

Strategic objectives - The main priorities of the Municipality as set out in the IDP. Budgeted spending must contribute towards the achievement of the strategic objectives.

Unauthorised expenditure - Generally, is spending without, or more than, an approved budget.

Virement - A transfer of budget.

Virement policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

Vote - one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and (b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned. In Ndlambe Local Municipality this means votes such as Executive & Council, Financial Services, Corporate Services, and Public Safety etc.

MIG - Municipal Infrastructure grant- Conditional grant capital in nature

INEP - Integrated Electrification (municipal) Programme grant capital in nature.

EPWP -Expanded Public Works Programme

FMG - Financial Management Grant

NRW- Non-Revenue Water

mSCOA- Municipal Standard chart Of Accounts

INTRODUCTION

The quarter 3 budget implementation report covers revenue and expenditure and electricity and water losses for quarter 3 of the 2023/2024 financial year.

The budget implementation report assesses the in-year financial performance of the municipality against the budgeted revenue and expenditure. The budget implementation report focuses on the credibility of municipal budget, covering capital and operating budgets as well as sustainability of the municipality that includes debtors, creditors, and cash flow position through compliance with relevant legislation and regulations.

LEGISLATIVE FRAMEWORK

In terms of section 52 (d) of the Municipal Finance Management Act, (Act 56 of 2003) (MFMA), the mayor of a municipality must within 30 days after the end of each quarter submit a report to council on the implementation of the budget and the financial situation of the Municipality. Section 74 of the MFMA requires accounting officers to submit such information, returns, documents, explanations, and motivations as may be required.

EXECUTIVE SUMMARY

The executive summary presented is aimed at providing Council with a high-level overview of the trading results for the period quarter 3 of 2023/2024 as well as a comprehensive overview of the Municipality's financial management and viability, and the extent to which the Municipality is meeting or exceeding planned performance as contained within the Service Delivery and Budget implementation plan.

The above table C1 outlines the overview of the monthly performances the detailed information is outlined in table C2 to table C7 and their supporting tables where narrations are also provided.

Revenue:

The actual year-to-date operational revenue for the 3rd quarter is R474,092 million and the year-to-date budget of R498,191 million and this reflects a negative variance of R24,099 million which is -5%. The year-to-date collection rate for the 3rd quarter ending in March is 77% vs the budgeted collection rate of 83%.

Operating Expenditure:

The year-to-date operational expenditure as at the 3rd quarter is R448,482 million, and the year-to-date budget is R492,906 million. This reflects an underspending of R44,423 million for the 3rd quarter ending in March.

The line items that are the contributing factors to an over spending are employee related costs due to budgeted vacancies that are not yet filled, debt impairment variance is resulted by debt write off that is done in the last month of the financial year during the adjustment budget the bulk of the budget for this class will be allocated in the last quarter of the financial year, operating costs presented as "other expenditure" reflects the commitments of R2,387 million made to the service providers and the expenditure will only be incurred when the services are rendered, and contracted services reflects the commitments of R3,909 million made to service providers the expenditure will be incurred once the services are rendered and will therefore integrates to the year to date actual.

Capital Expenditure:

The year-to-date capital expenditure for the 3rd quarter ending in March is R70,087 million and the year-to-date capital grants transferred are R185,668 million. Capital expenditure is dominantly funded by DORA grants through schedule 5B and 6B. The allocated grants are transferred to the municipality by instalments in accordance with the payment schedule published in National Treasury website (www.treasury.gov.za).

Surplus/Deficit:

Taking the above into consideration, the net operating surplus for the 3rd quarter ending in March is R25,610 million. The net operating surplus/deficit is made after deducting the total operating expenditure from the total operating revenue. It must be noted that the capital transfers that are funding capital projects are excluded. The net operating surplus margin for the 3rd quarter ending in March is 5% greater than 0%.

Debtors:

Outstanding debtors' is comprised of consumer and sundry debtors from exchange and non-exchange transactions. The non- exchange transaction are transactions because of rates imposed on the value of properties whilst the exchange transactions are because of transactions from supplying water services etc. The total outstanding debtors as at end of March amount to R276,386 million compared to the previous quarter that was reflecting R259,659 million. Debtors relating to traffic fines are reported as other debtors as presented under current assets on Table C6 and as a result, they do not form part of consumer debtors.

Creditors:

All creditors are paid within 30 days of receipt of invoice as required by MFMA, however in the 3rd quarter ending in March reflect at R383 thousand. The group of creditors outstanding is trade creditors, Auditor General and Pensions/Retirement.

Table C2 and C3 measure the monthly actuals and year to date actuals against the year-to- date budget.

- The above-mentioned budget tables are presented by standard classification and vote respectively for both revenue and expenditure.
- The variances are all reflected in the year-to-date variance column.
- The financial results portrayed in the two tables are the same as those in other tables (i.e.it is only the description or basis of reporting that is based on financial or budget performance by vote or department, and National Treasury’s standard classification. The narrative on variances above 10% will be provided on the itemized table C4 to avoid duplications.

Table C4 above: The municipality is on the accrual basis as a result revenue in this table reflects a breakdown of the actual revenue billed per revenue source (property rates, electricity, water, wastewater and waste), as well as “other” revenue received. The expenditure reported is based on the invoices that are captured in the system.

Revenue:

- The actual year-to-date operational revenue as at end of 3rd quarter ending in March is R474,092 million and the year-to-date budget of R498,191 million and this reflects a negative variance of R24,099 million which is -5%.
- Although revenue reflects an overall variance of -5% there are items within the breakdown of revenue that have exceeding a variance of 10% and the explanations are provided as follows:
- *Water:* -The movements on water service charge for March reflect a negative variance of 13%. The cost of the free basic on water availability charges’ budget was reduced. The municipality has been implementing drought water tariff since the drought was declared in 2021/22 for the area of Sarah Baartman. Ndlambe Municipality billed the drought water tariff until November 2023 and from December 2023 to date billing has been on the normal water tariff. These two stated factors contribute to the realized variance for water service.
- *Sale of rendering services:* - The sale of goods and rendering of services reflects a 15% increase due to an increase on number of building plans submitted for approval and an increase on number of requests for rates clearances.
- *Interest on receivable:* - Actual year-to-date revenue amounts to R7,064 million at the end of the 3rd quarter ending in March, resulting in a positive variance of R773 thousand which reflects a 12% this is due to increase in arear debts.
- *Interest from current and non-current assets:*- Interest earned reflects a positive variance of 49%, the call accounts investments were increased by the additional grants that were received during the year and interest that is earned from those call accounts (relating to grants) becomes the return to the municipality.
- *Exchange transaction: licenses and permits:-* transaction: Licenses and permits reflects as underperforming at 69% of the budget as of March 2024. This is because of the fire incident at the traffic department. The traffic department did not operate during the period 1 July 2023 to November 2023 and only opened from December 2023 for service relating to issuing of motor vehicle and driver’s licenses. Furthermore, the budget for the current year relates to the full revenue amount for licenses not offsetting the expenditure to the department of transport therefor the various between the audited revenue of R3 686 million and the current year budget of R14 764 million. The next budget the budget for these items will only relate to the 17% commission.
- *Operational revenue:-* a positive variance is because of refunds on insurance claims.

Operating Expenditure:

- The year-to-date operational expenditure at the end of the 3rd quarter ending in March is R448,482 million and the year-to-date budget is R492,906 million.
This reflects under-performance of R44,423 million translates to a -9% variance.
- This is due to the municipality’s efforts to curb spending that can be avoided without compromising the delivery of services to the municipal clientele.
- The under-spending variance is due to vacancies which are vacant in the organogram but have been budgeted for in the projections.

- *Inventory consumed:-* reflects the over expenditure of 11%. This is mainly for the bulk water consumption and the quarry material for the maintenance of roads.
- *Debt impairment:-*The amount of debt impairment is R9,709 million compared to a year- to-date budget of R29,250 million at the end of 3rd quarter ending in March with a variance of R19,541 which reflects a -67%. Debt impairment relates to the contribution that is recognized for the debt impairment in the statement of financial position, to impair inactive debtor's accounts. The contribution is informed by the impairment calculations aligned to the Impairment policy which takes into consideration various factors i.e. debtors payment trend and ageing of debts. The recognition to the provision is processed after year end.
- *Interest on borrowings:-* payment the variance is resulted by the interest in April, May and June that will be raised as accrual by the end of the month. The loans are paid bi-annually, and the interest is compounding monthly.
- *Transfers and subsidies:-* consist of programs to promote local economic development.
- *Irrecoverable debts written off:-*This item relates to the write-off of the irrecoverable debts. The write-offs are recommended to Council by rates and evaluation committee. The journal will be processed to move the movement of R9,709 million that is erroneously reflecting under debt impairment however the correction will reflect in April. The write-offs are done in intervals which are Sept, March and June and the month of June carries the bulk write-offs relating to indigent and deceased debts.

Surplus/Deficit:

- Taking the above into consideration, the net operating surplus for the period ending March is R22,325 million.
- The net operating surplus is the surplus made after deducting the total operating expenditure from the total operating revenue.
- It must be noted that the capital transfers that are funding capital projects are excluded.

TOTAL COMMUNITY WEALTH/EQUITY	2	1,342,133	1,370,107	1,500,772	1,438,544	1,500,772

- The above table outlines that community wealth amounts to R1,438,544 billion, total liabilities R505,816 million and the total assets R1,944,360 billion.
- Non-current liabilities are mainly made up of borrowing, post-retirement medical aid, provisions for long service awards and landfill sites.
- It must be noted that the valuation for the items mentioned is done at year-end by the experts.

- The current ratio for the quarter ending in March is 1.22 vs the norm of 1.5-2:1, the ratio means that the municipality might experience difficulties on paying back its short-term liabilities (debt and payables/creditors) with its short-term assets (cash, inventory, and receivables/debtors). To improve the ratio the municipality must ensure that it cuts down on expenditure that will yield to a decrease on outstanding creditors, reduce its debtor's book, and ensure that inventory is converted into cash quicker through being efficient on rendering service delivery.

Cash/cash equivalents at month/year end:		245,296	22,679	94,653		209,863	130,311			61,167

It must be noted that figures in the cash flow statement above are VAT inclusive for vatiable items therefore they will be different from the figures in the statement of financial performance and financial position.

- Service charges under receipts are informed by the aggregated collection rate of 77% for the 3rd quarter ending in March.
- The municipality continues to closely manage and control the cash flow ensuring that monthly commitments i.e., Eskom and salaries etc plus invoices are paid within the due dates.
- The balance reflecting in cash and cash equivalent is dominantly made up of transfers and grants for both operating and capital and internal call account investments.

- Transfers and grants are invested separately in call accounts and the money is withdrawn when there is an invoice that is due for payment.
- *“A cost coverage ratio its purpose is to indicate the municipality’s ability to meet at least its monthly fixed operating commitments from cash and short-term investment without collecting any additional revenue during that month.*

The ratio is adjusted for unspent conditional grants as the cash is not available for normal day-to-day expenditure but rather reserved for Grant related expenditure.”

- The ratio result of 1 month is within the norm, which is interpreted as positive, the municipality can be able to meet its operational monthly commitments without collecting any additional revenue for the active month.

Supporting table SC3 provides a breakdown of the debtors. The outstanding debtors as at end of March amount to R276,386 million.

- The debt breakdown shows that 80.62% of the debt is owed by households and 17.40% relates to debt owed by commercial property owners. Further 15.16% of the debt relates to interest charged on arrear debt.
- Lastly, Government departments account for 1.98% of the arrears.
- For further details on the total debt of R276,386 million note that 4% relates to Indigent debtors which are considered for write-off at year end and 69% relates to debt from Eskom Electricity areas where the municipal does not have any control to enforce debt collection.
- During the first quarter of the financial year debt write-offs to the amount of R4,395 million was made.

Total By Customer Type	1000	353	-	-	-	-	-	-	-	353	137

Creditors:

- All creditors are paid within 30 days of receipt of invoice as required by MFMA, the outstanding creditors at the end of March reflect at R353 thousand whereas.
- The group of creditors outstanding is trade and creditors, the outstanding balance is between current and 30 days.
- Goods received vouchers (GRV) are only processed on the system as and when we are about to pay, and this approach distorts the entire picture of ageing our creditors since the system will count the number of days taken to process an invoice from the date the GRV is processed.
- The contracted services are to be paid through order system payments and that should feed the age analysis module.
- Proposal was made that the municipality need to maintain the invoice register that should be used for manually updating the creditor’s age analysis and the Budget and Treasury department is in a process of implementing the proposed register.

Table SC5 outlines the short-term investment portfolio for the period of the quarter ending in March and this excludes current accounts amounting to R9,028 million.

- The breakdown of the balance of investments is as follows:
- FNB investment accounts to the value of R16,643 million are ceded to Eskom and DBSA for the surety and guarantee. The guarantee is for Ndlambe municipality's bulk account at Eskom and the surety for the remaining balance of a loan acquired from DBSA.
- Monies transferred to the municipality for the conditional grants are invested separately in a call account for easy access when funds are required, they are reflecting at R157,519 million.
- The municipality's internal investments reflect at R26,673 million the investments are raised by the equitable share payments.

- Supporting table SC6 provides details of grants received for Environmental Health Subsidy of R862 thousand is not reflected in the table above due to the system program set-up, that is erroneously omitting the grant. The table will be revised and reflect correctly.
- It must be noted that in the above table public safety reflects as if it's duplicated however it is not a duplication the minus R1,800 million reflecting under operating is setting off one of the positives under capital transfers. This is the correction of mixed segments erroneously used during the budget process.

% increase	4		8.5%	8.2%						8.2%
Total Parent Municipality		190,036	205,420	205,662	47,068	149,160	153,941	(4,781)	-3%	205,662

- The payment in lieu of leave is reflecting a variance of 4140% the senior managers are allowed to encash leave in terms of their contracts and the budget was under provided.
- The performance bonuses reflect a big variance in the table above however this resulted to the budget for performance appraisals not allocated in one month instead it was straight-lined over 12 months in error hence the year-to-date budget is reflecting an understatement. The correct amount should be the full annual budget under the year-to-date budget.

- The above outlines the claims that were reported to Gaudrisk insurance company. The municipality has paid the insurance premiums of R311 thousand for quarter 3 against the annual budget of R2,269 million.
- It must be noted that all incidents that involve municipal vehicles whether they are damaged or not must be reported to the insurer, the third-party claims received by the insurer will be linked to the reported incident by the municipality otherwise the claim will not be processed.
- The insurance policy schedule is determined by the addition of all fixed assets that are included in municipality's fixed asset register. All assets are insured at the replacement value. The policy schedule includes other sections such as fidelity, business interruptions, public liability etc.
- The municipality is obliged to provide the updated fixed assets register to the insurer on a regular basis within the financial year.

3.6 Irregular, fruitless and wasteful expenditure M09 - Quarter 3

3.6.1 IRREGULAR EXPENDITURE

The potential Irregular Expenditure identified for the period 01 July 2023 to 29 February 2024 is summarized by directorate in the table below and the cumulative expenditure amounted to approximately R37,026,074.50 with 332 instances identified (this includes historical ongoing expenditure from previous contracts). The review of expenditure for the period ending March 2024, will be performed during April 2024 and reported with the following quarterly report, due at the end of Quarter 4.

Department	No of Records - Department	Total Amount - Department	Percentage of Spend per Department
Community Services	40	R1,028,051.12	2.78%
Corp Services	41	R673,561.65	1.82%
Finance	49	R1,919,811.75	5.19%
Infrastructure	141	R32,682,217.08	88.27%

- Electricity losses represent a comparison of purchased kWh to billed kWh. Billed kWh is a sum of time of use (TOU), conventional meter readings and prepaid electricity.
- Most of the losses are incurred in Alexandria but the volumes purchased for Alexandria are not material relative to Port Alfred Volumes, to date the calculated losses are 18%, this is higher than the 8% industry norm. According to Manelec, these losses are because of line losses due to old infrastructure. See detailed calculations in electricity losses report.

Summary of the Overall Bulk Water Supply and Non-Revenue Water Estimates for March 2024 Ndlambe Local Municipality Combined Water Supply and NRW Estimates

Extract from the Ndlambe local municipality's water losses report – March 2024

This report is a summary of the combined BWS and NRW for the March 2024. It must be noted that in the Bathurst area the majority of the meters remain faulty, and water balances have been derived using historic trends to generate the required NRW. New meters are being installed. It must be further noted that the tanker water supply to certain areas has been included in the bulk supply for those areas. In the areas where tanker filling has been done, these volumes have been removed from the bulk supply for that area.

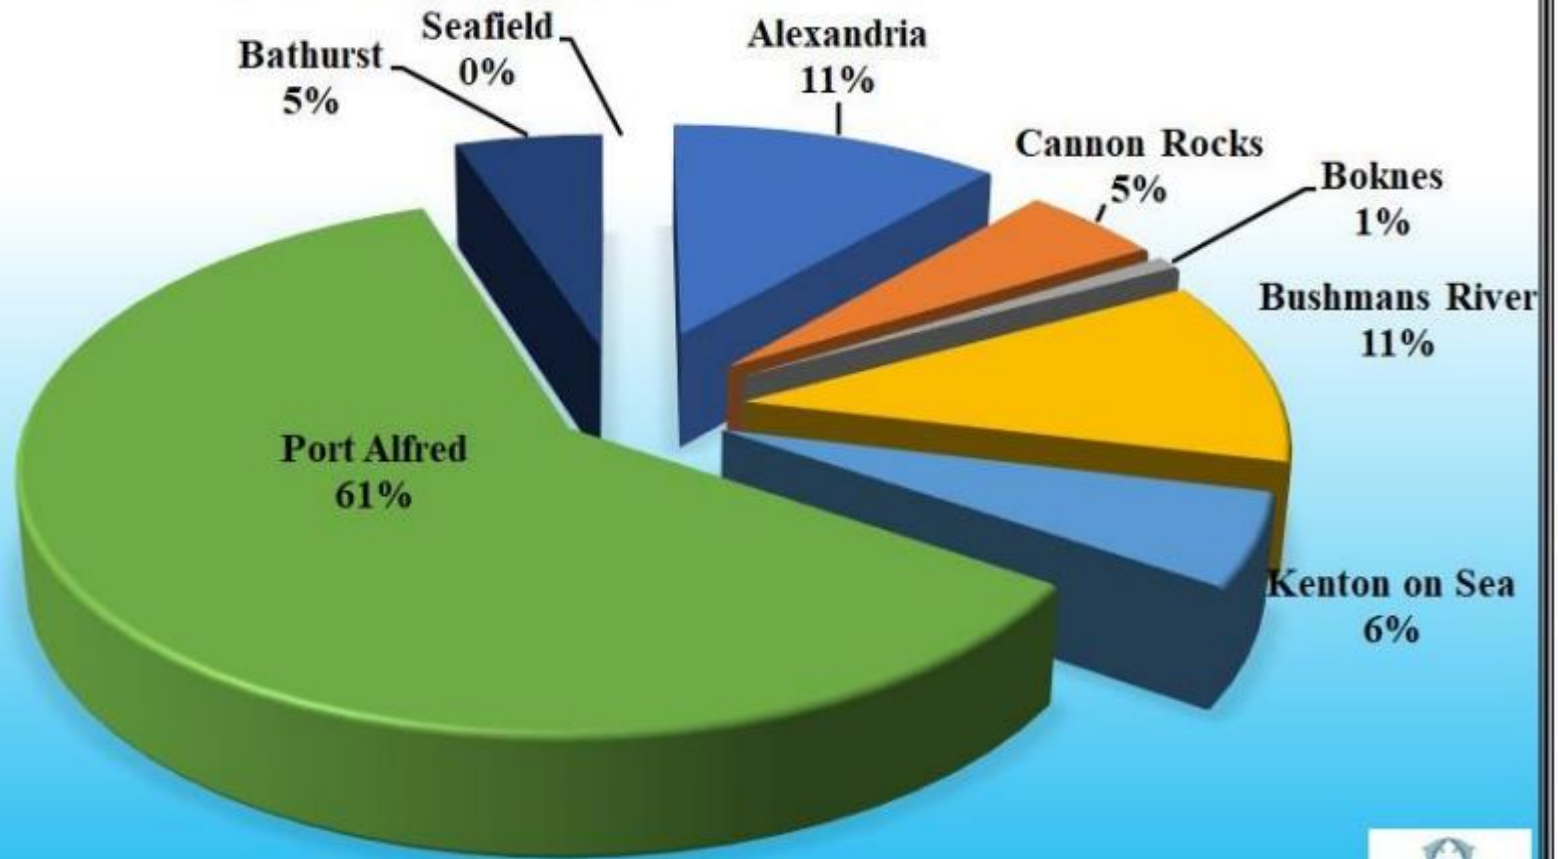

Summary Below is a summary for the month of March 2024 of the entire Ndlambe municipal area: -

- ❖ Total Potable Supply Metered = 171 567m³
- ❖ Total Billed = 109 091 m³
- ❖ Estimated Potable NRW = 36% YTD = 33.7%
- ❖ Average Daily Demand = 4305/day
- ❖ Average No. of Registered Meters = 16 176
- ❖ Average Usage per Meter = 7 m³ /month
- ❖ Average No. of Zero Reading Meters = 5 922
- ❖ Ave. Daily Usage/Meter excl Zero Meters = 307 l/day

The tables below give a summary of the water balances and NRW estimates for the various areas.

Total Combined Ndlambe		2024						
		YTD Total	January	February	March	April	May	June
Combined Values for Entire Ndlambe Region	Total supply Metered	626843	236 422	218 854	171 567			
	Total Billed	416994	156 039	151 864	109 091			
	Estimated Potable NRW	33.7%	34%	31%	36%			
	Total Average Daily Demand	6 152 Kl/day	8 485 Kl/day	5 667 Kl/day	4 305 Kl/day			
	Average No. of Registered Meter	16 255	16 306	16 283	16 176			
	Average Usage per Meter	8 Kl/m	9 Kl/m	9 Kl/m	7 Kl/m			
	Average No. of Zero Meter	5 508	5 388	5 272	5 922			
	Ave. Daily Usage/Meter excl Zero Meters	359 l/d	415 l/d	356 l/d	307 l/d			

NDLAMBE LOCAL MUNICIPALITY CONTRIBUTION TO NRW WATER

The pie chart above provides a contribution town to NRW for the entire Ndlambe area.

3.8 Cost containment report M09 - Quarter 3

Measures	Year to date Budget '000	Q1 '000	Q2 '000	Q3 '000	Q3 Savings '000
Use of Consultants	27,815	7,578	8,284	9,834	2,120
Vehicles used for political office- bearers					
Travel and subsistence	2,310	489	442	384	995

Sponsorships. Events	419	202			217
Catering	760	305	260	268	(73)
Entertainment MM, CFO, Mayor, and Technical Manager	150	17	24	43	66
Communication	3,067	779	988	1,049	250
Other related expenditure					-
Total	35,887	9,778	10,259	11,827	4,023

- In terms of the Municipal Cost Containment Regulations, 2019 Regulation 15 (2) and (3) the Municipal Manager must on a quarterly basis report to the Council the savings on the budget relating to the cost containment items.
- It must be noted that catering does not reflect savings in this quarter. Cost containment policy allows the accounting officer to incur catering services if hosting events such as meetings, workshops, council proceedings, conferences, recruitment interviews and forums and they exceed five hours.
