SCOPE OF WORKS

SPECIFICATIONS FOR THE SUPPLY AND DELIVERY OF GEL FUEL

1. BACKGROUND

Municipalities are required to provide a wide range of Free Basic Services to all indigent households within their jurisdictions. Where no infrastructure exists or indigent households reside in privately owned properties or farms, a municipality must enter into a supply agreement with the private property owner or provide alternative means to render such services.

Ndlambe Municipality chose to supply gel fuel and gel stoves as an alternative energy source to free basic electricity due to the absence of electricity infrastructure.

2. SCOPE OF WORK

This specification covers the requirements for supplying and delivering gel fuel to the Ndlambe Municipality.

Ndlambe Municipality will procure gel fuel to continue providing Free Basic Alternative Energy to all indigent households without access to electricity infrastructure. To ensure good quality service to this group, the following specifications have been developed as a criteria to guide the selection of good quality Gel Fuel;

3. COOKING GEL FUEL COMPLIANCE REQUIREMENTS

Cooking Gel Fuel

Gel Fuel shall comply with the following **SANS 448:2010** Edition 1 requirements and **ISO 9001** in respect of:

PROPERTY	REQUIREMENTS OF SPECIFICATION SANS 448:2010
Flash point (ASTM D93), C	23 min
Viscosity at 25 C, cP	25000 min
Combustion performance	
Time taken to heat 1L of water from 25 C to 90 C, min	15max
Residue, % (m/m)	5 max
Composition	
Aromatic content (ISO 3837), %	2,0 max
Sulphur content (EN 24260), %	0,05max
Ethanol content	Shall not be less than mass fraction of 80% indicated

Note: Gel Fuel must comply to SANS 2010:448 and ISO 9001 standards, but due to SABS's limited testing capability, the following will be accepted in respect of the SANS 2010:448 and ISO 9001 test ;

SANS 2010:448:

- 1.1. a full/partial product testing certificate from SABS, an Independent laboratory, or any SANAS accredited institution that performs tests.
- 1.2. a manufacturer's/supplier's affidavit attesting that the tested sample is representative of the product consignment to be delivered.
- 1.3. contact details of the accredited testing institution to be provided to verify the authenticity of the test certificate.

ISO 9001:

- 2.1. the manufacture/Supplier must supply an **ISO 9001** accreditation for the supply of ethanol gel
- 2.2. a manufacturer's affidavit attesting that the tested sample is representative of the product consignment to be delivered.
- 2.3. contact details of the accredited testing institution to be provided.

It is critical that Gel be certified for safety of use. SABS has a SANS 448:2010, but it is unable to do full tests at this stage. It is expected that the supplied Gel complies with this standard, hence recommending a partial test from SABS or independent accredited laboratory test certification of product safety.

Failure to submit the ISO 9001 certificate with bid as per the tender notice will deem the bid non-responsive.

PERFORMANCE OF SUCCESSFUL BIDDER

The successful bidder will undergo a performance review by the Ndlambe Municipality upon delivery of each order to assess the bidder's performance. If the successful bidder continuously underperforms or does not meet the service level required as per the contract, the service provider will be issued a written notification of such poor service. Continued poor performance will result in the termination of the contract.

Signature of the bidder.....

The bid will be subject to a functionality evaluation, to determine the technical capability of the bidder.

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
